SPEAKER FOR WOMEN'S CONFERENCES, CHURCH  
RETREATS, AND BUSINESS EVENTS

DON'T MISS THE CALL: HELPING BUSY WOMEN STOP  
REACTING AND START LIVING INTENTIONALLY

## The Story Behind the Message

My dad called me while I was closing a business deal.

I let it go to voicemail. When I called him back, he told me I had my priorities wrong. He was right. That conversation changed how I run my business, lead my family, and show up for my life.

I've spent nearly three decades co-founding a tech startup, building an award-winning artisan cheese company, raising a blended family of nine, and figuring out how to hold it all together without losing myself.

Now I help other women make that same shift before they miss their own calls.

### **Audiences leave with:**

- *A framework they can use on a regular Tuesday*
- *Permission to stop doing everything and start doing what matters*
- *Practical tools leading their work, home, and faith with intention*
- *Encouragement that sticks long after the event ends*

## PERFECT FOR

Women's conferences and retreats, church and faith-based events, women in business groups, chambers of commerce, and leadership gatherings seeking a practical, honest, story-driven speaker with real-life credibility.
