

Angel King

SPEAKER FOR WOMEN'S CONFERENCES, CHURCH
RETREATS, AND BUSINESS EVENTS

JUGGLING A FULL LIFE WITH JOY AND INTENTION

My dad called me while I was closing a business deal. I let it go to voicemail. When I called him back, he told me I had my priorities wrong. He was right. That conversation changed how I run my business, lead my family, and show up for my life.

I've spent nearly three decades building a blended family of nine, six stepchildren and three together with my husband, and watching our family grow to twenty-one grandkids, all while building an award-winning artisan cheese company and providing finance and leadership consulting for two family-run tech companies. I have leaned hard on faith and on friends who'd already walked those seasons ahead of me, and I figured out how to hold it all together without losing myself.

Now I help other women juggle the multiple hats and pulls on their time, without losing what matters most.

Audiences leave with:

- *A framework they can use on a regular Tuesday*
- *Permission to stop doing everything and start doing what matters*
- *Practical tools leading their work, home, and faith with intention*
- *Encouragement, rooted in faith that sticks long after the event ends*

PERFECT FOR

Women's conferences and retreats, church and faith-based events, women in business groups, chambers of commerce, and leadership gatherings seeking a practical, honest, story-driven speaker with real-life credibility.
